had fun with it for a couple hours, then i got progressively more annoyed with it.. A bit basic, but quite fun. Standard rouge-lite mechanics leave you running through the dungeon multiple times to come back to town after rescuing a villiger or to level up abilities. Not a huge variety in weapons from what ive seen but plenty of room to grow if the developer wishes too. Overall enjoyable game i could see myself putting a good few hours into.. One of the most fun roguelikes I've played since Binding of Isaac. Although not as much variety the gameplay is great, and same with the ending. The soundtrack is also one of my favorites in gaming. Highly suggest this if you're a fan of roguelikes/lites and some bangin tunes.. Other games are available in this genre, doing a far better job. Not worth it.. Love the game, the town building portion is fun.
